

Genet Western

YOUR TRUSTED PARTNER IN DISPOSABLE
FOOD PACKAGING SINCE 1976

COMPANY PROFILE

Since 1976, Genet Western has been helping businesses find dependable, high-quality disposable food packaging and janitorial solutions. Rooted on the West Coast with a national reach, we connect customers with trusted manufacturers offering both stock and custom solutions, from cups and containers to pizza boxes, paper bags, napkins, tissues and sustainable alternatives.

We simplify the process by managing every step, from sourcing and artwork coordination to samples, pricing, purchase orders, logistics, and much more. With one point of contact and a broad network of proven partners, we make disposable food packaging and janitorial solutions easier and more efficient nationwide.

Inside this catalog, you'll find practical, well-designed packaging solutions built to perform in real foodservice environments. If you don't see exactly what you're looking for, let us know. We're happy to source it or develop a solution that fits your needs.

WHY CHOOSE GENET WESTERN?

One Source, Unlimited Access

30+ trusted manufacturers — both domestic and overseas — catering to your needs through one simple point of contact.

Material Options for Every Requirement

Choose from a full range of recyclable and compostable materials.

A Vast Selection of Products

3,000+ SKUs across food packaging and janitorial solutions — helping you meet your needs with both custom and stock options.

Proven Expertise

50 years of packaging experience and strong local market knowledge — we know what works and what sells.

Customization Made Easy

In-house graphics team for artwork needs.

Reliable Customer Service & Support

A knowledgeable team ready to help with inquiries, quotes, samples, and sales — providing quick turnaround, clear communication, and dependable follow-up every step of the way.

Custom PACKAGING SOLUTIONS

Your Brand, Your Packaging, Your Way

Genet Western, Inc. specializes in custom disposable food packaging solutions designed to showcase your brand and deliver quality with every order.

CUSTOMIZABLE PRODUCTS

- Liners / Wax Paper
- Paper Bags
- Paper Cups & PET Cups
- Napkins
- Coffee Sleeves
- Pizza Boxes
- Bio Boxes
- Paper Food Trays & Pails
- Paper Food Containers

AND MANY MORE!

Your packaging is more than just a container. It's your brand in your customer's hands. *Let's make it unforgettable.*

WHAT OUR PRODUCTS ARE MADE OF

At Genet Western, Inc., we believe the right material makes all the difference—both in function and in sustainability. That's why we carefully select materials that offer the best balance of performance, presentation, and environmental responsibility. Whether you're serving hot meals, cold beverages, or delicate baked goods, we provide packaging solutions that support your food and your brand.

Here are the primary material categories we use:

Aluminum Foil

An excellent conductor of heat, aluminum foil is used in trays, wraps, and lids where oven or grill compatibility is needed. It helps retain heat and prevent leaks, making it ideal for catering and takeout. It is also recyclable in most areas.

Bagasse

Derived from sugarcane fiber, bagasse is a compostable and sustainable alternative to plastic and foam. It's durable, heat-resistant, and suitable for both hot and cold foods—commonly used in plates, bowls, and clamshell containers.

Bamboo

A fast-growing, renewable resource, bamboo is used for eco-friendly packaging such as cutlery, bento trays, and serving containers. Naturally strong and biodegradable, it adds an elegant and sustainable touch to foodservice items.

CPLA (Crystallized PLA)

A heat-resistant variation of PLA, CPLA is designed for use with hot foods and beverages. It is commonly found in compostable cutlery and hot cup lids, offering strength and environmental responsibility in one material.

Corrugated Fiberboard

This sturdy, multi-layered paper material is widely used for pizza boxes, shipping cartons, and heavy-duty takeout containers. It's recyclable and provides excellent protection and insulation for food during transport.

Kraft Paper/Lined Kraft

Made from unbleached pulp, kraft paper offers a natural, rustic look and is compostable. Often used in wraps, bags, and food liners, it is available with optional lining for added resistance to grease and moisture.

Paperboard/Folding Cartons

Lightweight and printable, paperboard is widely used in bakery boxes, sleeves, and custom containers. It is generally recyclable and offers great surface quality for branding and labeling.

PET (Polyethylene Terephthalate)

A strong, clear plastic widely used for cold cups, salad containers, and clamshells. PET is lightweight, shatter-resistant, and recyclable, making it ideal for displaying and preserving fresh food.

PE (Polyethylene – HDPE/LDPE)

A versatile plastic used for wraps, bags, and containers. HDPE is more rigid, while LDPE is softer and more flexible. Both are moisture-resistant, and select types are recyclable depending on local facilities.

PP (Polypropylene)

This durable plastic is heat-resistant, microwave-safe, and used for hot food containers, soup bowls, and deli trays. PP is recyclable in many areas and valued for its ability to withstand high temperatures without warping.

PLA (Polylactic Acid)

A bioplastic derived from renewable resources such as cornstarch or sugarcane. PLA is industrially compostable and ideal for cold applications like drink cups and deli lids. It offers a plant-based alternative to traditional plastics.

UNDERSTANDING PACKAGING TERMS

Confused by packaging terms? This glossary explains the most common materials, features, and eco-labels you'll see on food packaging—so you know exactly what you're using.

Safety & Chemical

BPA-Free (Bisphenol A-Free)

Free of BPA, a chemical once common in plastics that can leach into food. Safer for food contact.

BPS-Free (Bisphenol S-Free)

No BPS chemicals, making it safer than some plastics still in use.

PFAS-Free

Packaging without “forever chemicals” used for grease resistance. Safer and eco-friendly.

Food-Grade

Meets FDA/food-safety standards for direct contact with food.

Non-Toxic Inks

Uses safe printing inks that won't contaminate food.

Environmental & Sustainability

Compostable

Breaks down fully into natural, non-toxic elements. May be home or industrial compostable.

Recyclable

Can be collected and reprocessed into new materials. Check local guidelines.

Biodegradable

Breaks down naturally, though not always as quickly or cleanly as compostable.

Post-Consumer Recycled (PCR) Content

Made from recycled materials (like bottles, paper, or plastic) that were already used.

Sustainable

Produced with eco-friendly processes or renewable resources.

Renewable Materials

Derived from plants like bamboo, paper, or sugarcane.

Functional Features

Microwave-Safe

Won't melt, warp, or release harmful chemicals when microwaved.

Freezer-Safe

Withstands cold temps without cracking.

Oven-Safe

Safe for oven heating (check temperature guidelines).

Leak-Resistant

Prevents liquids from spilling out.

Grease-Resistant

Keeps oil and fat from soaking through packaging.

Insulated

Maintains hot or cold food temperatures longer.

Design & Usage Terms

Single-Use

Meant for one-time use.

Reusable

Durable enough for multiple uses.

Tamper-Evident

Shows clear signs if opened or tampered with.

Tamper-Resistant

Harder to open or alter without detection.

Customizable Packaging

Can be printed or branded with your design/logo.

Stock Print

Comes with pre-made designs (e.g., generic pizza box prints).

If you don't see a disposable food packaging or janitorial product in our catalog, please reach out. We have many more options available to meet your needs.

We also offer free samples so you can experience the quality for yourself. Feel free to ask questions or share your inquiries. We look forward to partnering with you to provide the right food packaging and janitorial solutions.

For more information, you may contact our account managers at **(408) 412-7299**. You may also email us at **info@genetwestern.com** or visit our website at **www.genetwestern.com**.

A photograph of an outdoor dining table set for a meal. The table is made of light-colored wood and is covered with a white tablecloth. On the table, there is a bowl of fruit, a plate of food, and a vase of flowers. The background is a blurred green field.
